

Student Commitment and Course Expectations

Be Prepared

Bring Materials. We will give students a book at the first lesson. Students are responsible for bringing all materials and any previous practice tests to each lesson.

Pencils. Not mechanical. You'll need old school pencils for the real test.

Calculator. Make sure it's approved for the real test. In general use the TI-83 or TI-84.

Leave It. Get in the habit of leaving your cell phone in the car. You won't need it in the lesson or on the test.

Feed Your Mind, Body, Soul. Eat before you come in for session. You need fuel to power your brain. Rest up to help keep your focus.

Homework

Be Committed. We assign approximately 3+ hours of HW per lesson. In general, HW is due by the next lesson.

Be Accountable. To keep students motivated, we randomly spot-check one page of each HW assignment. If that page is incomplete/insufficient, an auto-email will be sent to families.

Make It Right. If you miss an assignment, the next lesson will still be great. Get caught up when you have time, and review all practice tests while you're at it.

We're Here For You. Use our online homework helper if you have questions about your homework or from your practice tests. Visit www.PrepNorthwest.com for more information.
